RPE Outsourcing Successfully Completes SAS 70 Type II Audit

Retail Consulting Provider Offers Hosting and Operations Management Services

Tampa, Fla. (February 24, 2010) – RPE Outsourcing, LLC (RPEO), a leading retail operations management service provider, announced today the company has completed its annual Statement on Auditing Standards No. 70 (SAS 70) Type II audit. The audit was performed by Accell TAC, P.A., a full-service CPA and consulting firm specializing in conducting SAS 70 audits. SAS 70 is an internationally recognized auditing standard, developed by the American Institute of Certified Public Accountants, which allows service organizations to disclose their control activities and processes to customers and their auditors in a uniform reporting format.

“RPE has strived to consistently maintain stringent controls that protect our customers’ critical data and the hosting infrastructure,” said Cliff Epstein, president, RPEO. “The SAS 70 Type II certification confirms our commitment to the highest standards of quality and performance in our data center to ensure security of services.”

The Service Auditors’ Report issued by Accell TAC, P.A., with an unqualified opinion, demonstrates that RPEO’s control objectives and activities were effectively designed and in operation throughout the reporting period. The Service Auditors’ Report includes a detailed description of RPEO’s controls and an independent assessment of whether the controls are placed in operation, suitably designed and operating effectively.

To receive a copy of the Service Auditors’ Report, or for any further questions, please send an email request to info@rpesolutions.com.
